humano sustentable

WHO WE ARE

Synergys Foundation is a nonprofit organization founded in order to promote sustainable human development, to generate and achieve higher levels of social welfare, promoting environmental care, healthy eating, entrepreneurial development, innovation and rational use of natural resources.

We are a group of people who share an ideal of full life. We promote participation for design, dissemination and implementation of actions that contribute to sustainable and integral human development to build a better society.

MISSION

We carry out several actions to preserve the environment, promote rational use of energy, encourage healthy eating, support entrepreneurship, innovation and contribute to social development.

We provide technical assistance to public and private agencies in surveying tasks, studies and statistical analysis. We manage and implement own and third parties projects and programs, aimed at sustainable development based on innovation and commitment to society.

VISION

Be a source of action to promote sustainable human development and improve people's quality of life through the sum of wills between private enterprise, associations and public agencies and equitable gender participation and youth leadership.

VALUES

Respect - Commitment - Responsibility - Transparency - Proactivity

GOALS

- To contribute to the sustainable development of life.
- To encourage the development of green spaces for recreation and to expand outdoor life.
- To promote rational and efficient use of energy.
- To contribute to improve eating habits, raising awareness on healthy eating.
- To promote outdoor recreation for the full and integral development of individuals activities.
- To sensitize and train in hygiene, food safety and quality for the population in general, and particularly the actors involved in the entire chain of food production process.
- To promote entrepreneurial development and innovation. To perform actions that enhance management capabilities to create, develop and consolidate companies.
- To cooperate in strengthening the entrepreneurial ecosystem, create a space for entrepreneurs' participation.
- To facilitate the participation of youth in the processes towards world peace and sustainable human development.

ACTIONS

To achieve these goals, **Synergys Foundation** develops various programs based on:

- 1) Training courses, organization of events, conferences, seminars, forums and workshops.
- 2) Field actions, through surveys, studies and statistical analysis.
- 3) Identification, formulation, evaluation and execution of programs and projects, own or third parties, at national and international level.

TEAM WORK

Our team consists of professionals from different specialties, achieving a multidisciplinary organization. One of our main strengths is the regionalization of activities. We participate in national projects, developing activities throughout the country.

This national network of partners enables us to carry out projects and programs throughout the country, ensuring the results by different management teams, who for years work in a unified way.

WORK AREAS

ENVIRONMENT AND SUSTAINABLE DEVELOPMENT

- To promote the rational and efficient use of natural resources.
- To raise sustainable development in order to achieve a balance between social welfare and responsible use of natural resources, by reconciling the three fundamental cornerstones of sustainability: economic, ecological and social levels.
- To promote the consumption of products that do not harm nature, promote the reduction of the use of hazardous chemicals and the sustainability and equitable distribution of natural resources.
- To promote afforestation of public and private spaces with native forestry, and revalue the natural ecosystem of the region.

NUTRITION AND HEALTHCARE

- To contribute to the improvement of eating habits and to encourage physical activity.
- To raise awareness and inform the positive impact of a balanced diet and regular activity on your health.
- To strengthen education and training in hygiene, safety and food quality, for the general population as well as for the actors involved in the entire food production process.

ENTREPRENEURSHIP AND INNOVATION

- To promote entrepreneurial development and innovation.
- To cooperate in order to strengthen the entrepreneurial ecosystem.

- To provide training and technical assistance for the development of entrepreneurship and to create sustainable enterprises.

- To establish a network that encourages entrepreneurial development, in order to search and unite efforts and resources, to form strategic alliances with different actors, national and international, in support of sustainable human development, all based on knowledge, scientific and professional support of the work team that consolidates this organization.

INTERNATIONAL VOLUNTEER PROGRAM

The Synergys Foundation has a Plan for Internationalization of Actions that aims to expand the geographic and cultural reach and to add collaborators from different latitudes of the world. In this context, the International Volunteer Program (PROVOLI) is one of the fundamental tools of the Plan for Internationalization of Actions.

This program aims to provide new international volunteer experiences for young people who wish to participate, and on the other hand pursues the aim to create ties and partnerships between organizations and institutions from different sectors and nationalities, to promote participation in the design, dissemination and implementation of actions that contribute to sustainable and integral human development towards a better and fairer society.

SYNERGYS FOUNDATION OBSERVATORY

Synergys' Foundation Observatory aims to characterize and analyze the realities of society, through the collection, processing, analysis and dissemination of data in order to support the design of public policies.

The results of the Observatory are used, among others, by:

- Decision makers on Public Policy issues ,
- Commune Government, Municipalities, Provinces and Nation,
- Legislative Sector (Councillors, deputies, senators),
- Researchers, academics and study centers,
- Citizens in general.

EXPERIENCE AND PROJECTS

We present the description of the main projects that the Synergys Foundation Team has participated over more than 8 years:

TYPING OF NATIONAL ENERGY CONSUMPTION - HOUSEHOLD SURVEYS ENRE - ENARGAS.

During the 2009/2010 period, the Foundation carried on throughout the national territory, an energetic survey, in the framework of the project HOUSEHOLD SURVEYS, belonging to the National Regulatory Authority for Energy (ENRE) and Gas Regulatory Agency (ENARGAS). This project was carried out under the supervision and monitoring of the National Technological University.

Surveys were carried out in more than 600,000 households in fifteen provinces, to establish national energy consumption. Each survey was loaded to a computer system of the Ministry of Energy's Office and accompanied by a photo of the house, in order to complete the paper survey.

"CYLINDER FOR ALL" PROGRAM - SURVEY ON TRADE RETAILERS AND WHOLESALERS.

From 2008 to 2014, the Foundation drew up reports of verifications of cylinder selling prices, as set out in Cylinder for all Program.

7000 monthly records were produced, in 23 provinces. The proceedings were held in all stores, service stations, distributors that sell 10, 12 and 15 kgs cylinders.

This project was carried out under the supervision and monitoring of the National Technological University.

ODT - OPEN DIGITAL TELEVISION - USER SURVEYS.

In the last semestre of 2012, 23,000 surveys were conducted to users as part of the national project ODT (Open Digital Television) of the Federal Planning Ministry.

The survey was aimed to know the perception of users of ODT system, at various stages: Order, Receiving Encoders and Antennas, Installation and Operation System.

The surveys were conducted in 10 capital provinces, in order to obtain a geographical sample referred to the operation of the television system.

This project was carried out under the supervision and monitoring of the National Technological University.

CONTROL AND MONITORING OF THE RATIONAL AND EFFICIENT ENERGY USE PROGRAM (PRONUREE).

PRONUREE I

As part of the National Program for the Rational and Efficient Energy Use, the Foundation oversees, certifies and verifies the delivery of energy-saving lamps to replace incandescent lamps in homes.

Develops the following activities:

- Visits to all households in order to certify the delivery of energy-saving lamps.
- Wholesale and retail audits in municipalities, communes and NGOs who have given lamps.
- Certification of broken light bulbs.
- Nationwide accompaniment in delivering lamps, identifying opportunities for improvement in the various stages of the project.

PRONUREE II

The "PRONUREE - Public Lighting" is a subprogram that promotes the efficient use of energy in existing systems of public lighting in the in Argentina's whole territory.

Aimed at optimizing the energy consumption of the communes and municipalities we performed the following project control tasks:

- Replacement of lighting fixtures.
- Optimization of energy resources, industries, businesses and public agencies.
- Training of Municipalities and Communes.

In both programs (PRONUREE I and II) the Foundation carries out the various tasks under the supervision and monitoring of the National Technological University.

PROGRAM "WOMEN DO" - NATIONAL MINISTRY OF SOCIAL DEVELOPMENT.

In the framework of Social Income through Work Program, our team carried out activities within the "WOMEN DO" project in 2013.

Among the activities, the Foundation carried out in different registration posts over 41,000 entries from women. Firstly, data of women and their families' background were requested, and then the recollected data was dump to an Informatics' System developed jointly with the National Ministry of Social Development in a Synergys Foundation Data Center.

"SEED CAPITAL" PROGRAM - NATIONAL MINISTRY OF INDUSTRY.

As part of the "Seed Capital" Program belonging to the National Directorate of Young Entrepreneurs of the Ministry of Industry, our team worked active in 2010, 2011 and 2012 in different provinces, mainly in the NEA, NOA , Cuyo and Center regions.

In this program the Foundation carried out various activities:

- Evaluation of projects loaded into the computer system Seed Capital.
- Training for entrepreneurs, in the framework of the "Learning to undertake".
- Making tutorials for monitoring and control of the various beneficiaries of the program. They were conducted in person, working with entrepreneurs in their workplace.

"ENVIRONMENTAL DIAGNOSIS" PROGRAM - BELGRANO CHARGES AND LOGISTICS S.A.

Synergys Foundation teamwork carried out the "Environmental Diagnosis" project of Belgrano Cargas and Logistics S.A. Company, at various fixed locations that the railway company has in its three branches, divided throughout the national territory.

The project was developed in two stages: Initial Survey and Training of Technical Team in the management of Hazardous Waste. In the first stage, field inspections were carried out in more than 30 locations and then a report per location was prepared, as well as the integral analysis of the company's environmental situation and the integral treatment of the Hazardous Waste.

The second consisted in the development of a program of "Training and monitoring in the management of hazardous waste". Quarterly visits were made to each location, where training activities are carried out in handling, separation, disposal, internal /

external management and removal of hazardous waste as established by National Law No. 24.051.

The team was composed of Environment engineers, geologists and specialists in quality management.

This project is carried out under the supervision and monitoring of the National Technological University.

"CENSUS OF PERSONAL" PROGRAM - BELGRANO CHARGES AND LOGISTICS S.A.

During the course of 2014, the team of the Foundation carried out the "census" of BELGRANO CHARGES AND LOGISTICS S.A. company personnel, for "Urquiza", "San Martin" and "Belgrano" lines.

More than 4,500 people were surveyed in different parts of the country and then the personal files of each employee were prepared.

This project is conducted under the supervision and monitoring of the National Technological University.

THE "CONVERGENCE OF ELECTRIC RATES AND FIRING OF ELECTRIC FEDERALISM AND INTEGRATION IN ARGENTINA" PROGRAM - MINISTRY OF FEDERAL PLANNING, PUBLIC INVESTMENT AND SERVICES.

During the course of 2015 and 2016, the technical team of the Foundation participated in the program "Convergencia Tariff" of the Ministry of Federal Planning, Public Investment and Services of the Nation.

A Technical and Administrative Audit Program was developed in 16 provinces of the national territory. These audits were carried out in the different Electric Power distributors participating in the national program. Electric Public Work was audited for a total of approximately 4,000 million pesos.

The technical team of the Foundation was formed by engineering professionals, with important experience in control audits and monitoring of public work.

This project is conducted under the supervision and monitoring of the National Technological University.

"SOCIAL ECONOMY ENTERPRISE PRODUCTS" PROGRAM - MINISTRY OF SOCIAL DEVELOPMENT - NATION MINISTRY OF LABOR AND SOCIAL SECURITY.

The Synergys Foundation team, in partnership with the Ministry of Labor, Employment and Social Security and the National Technological University - Avellaneda Regional Faculty, carried out the EPES project (Social Economy Enterprise Products) in different regions and towns of our country (Chaco, Catamarca, Rosario, Capital and GBA).

Our role as guardians and / or facilitators in the program is to provide advice and guidance to entrepreneurs in different areas, in the implementation of quality standards defined by IRAM through a specific reference, in order to contribute to improve the overall quality management of the enterprise, achieving a phased and sustained growth over time.

This project was carried out under the supervision and monitoring of the National Technological University.

SOCIOECONOMIC CENSUS OF SANCTI SPIRITU, SANTA FE PROVINCE.

Synergys Foundation Observatory carried out during March and April 2016, a socioeconomic census in the town of Sancti Spiritu, under the mutual cooperation agreement between the Municipality and the Foundation.

More than 1200 homes were counted, obtaining a significant amount of information. With that information a report was developed, that allows the local executive nurtured data, indicators and other variables, in order to contribute to the Public Policy of Sancti Spiritu.

"MANAGEMENT TOOLS FOR CONSTRUCTION ORGANIZATIONS" COURSE - MINISTRY OF SOCIAL DEVELOPMENT OF THE NATION.

Currently the Synergys Foundation, through the Ministry of Social Development of the Nation is conducting training and mentoring activities in construction techniques and management of labor cooperatives, members of the Civil Association "Isidro Velasquez" in the town of Florence, Santa Fe.

INTRODUCTION TO WORK COURSE (CIT) - MINISTRY OF WORK, EMPLOYMENT AND SOCIAL SECURITY OF THE NATION.

During the last quarter of 2016, the Synergys Foundation, in conjunction with the Employment Management of the City of Rosario, carried out 50 courses aimed at training 1,500 young people in the Greater Rosario region, to provide the knowledge and adequate strategies to plan and develop the path of research, training and access to employment. In turn, during the course of this year (2017), 163 courses of Introduction to Labor, in Rosario, Gran Rosario and localities of the South of Santa Fe are being carried out.

The teaching team of the Foundation is formed by professionals from different areas, with significant experience in youth training.

PROGRAM OF INDEPENDENT EMPLOYMENT (PEI) - MINISTRY OF WORK, EMPLOYMENT AND SOCIAL SECURITY OF THE NATION.

Currently, the Foundation, in agreement with the Ministry of Work, Employment and Social Security of the Nation, carries out the Independent Employment Program in Rosario, Gran Rosario and localities in the South of Santa Fe. The development of the program includes the completion of the Business Management Course (CGE), the formulation of projects for each entrepreneur or entrepreneurial team and the accomplishment of follow-up and accompaniment tutorials, in a way to support each of the program's objectives.

PROGRAM OF SUPPORT FOR EMPLOYABILITY AND SOCIAL INTEGRATION - MINISTRY OF WORK, EMPLOYMENT AND SOCIAL SECURITY OF THE NATION.

During the first half of this year, our Foundation, in agreement with the Ministry of Labor, Employment and Social Security of the Nation, carried out 50 Courses of Support for Employability and Social Integration. The same were dictated in the city of Rosario and Gran Rosario. In this way, 1,500 youngsters from 18 to 24 years old were trained in issues related to the improvement of Employability and the relationship with the productive Partner.
